Upgrades and Other Work in 2009

The past year was extremely busy at Tamaani Nunavik Wireless Internet. To offer you increased Internet connection speeds and daily download limits, Tamaani completely overhauled its network and replaced a number of critical components. Unfortunately, although the upgrading work was planned carefully, there were occasional impacts on the network's performance. Upgrading work took place between August and December 2009. Tamaani Internet's new higher-speed packages have been in effect since the end of December.

Since the Kativik Regional Government (KRG) launched Tamaani Nunavik Wireless Internet in 2004, the Internet has become a vital communications tool in the region's homes, businesses, schools and organizations. As more and more residents have adopted this tool and on-line application requirements have grown, so too is the capacity of the region's network.

Internet access brings important social and economic benefits to our remote communities. For this reason, the KRG is strongly committed to ensuring that reliable Internet services remain available to all Nunavimmiut.

Celebrate Tamaani's 5th Anniversary!

Tamaani Nunavik Wireless Internet invites you to celebrate its fifth anniversary.

As a way of saying thank you to its loyal customers, Tamaani has offered all of its residential subscribers one-month free Internet! Look for your one-month credit on your December statement.

And enjoy one month of Internet surfing on us.

** Offer applied to residential subscribers with an active account as of November 20, 2009.*
